Dear Mr. Reynolds,

Thank you for contacting Remington Country. We appreciate your patronage of Remington and Stren products. Your Model 700 was manufactured around 1980. Unfortunately, we do not have a description listed with the serial number on firearms of this age. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

[http://www.remington.com/Safety\\_Modification\\_Program/remington\\_safety.htm](http://www.remington.com/Safety_Modification_Program/remington_safety.htm)

If you will complete the form located through the link below we will forward to you a copy of the original owner's manual.

<http://www.remington.com/whatsnew/readroom.htm>

You can also find owner's manuals for some of our current models on-line in our Reading Room in the "What's New" Section.

To register your firearm, go to:

<http://www.remington.com/support/firegform.htm>

I just bought this rifle today. What can you tell me about it, and where can I find a manual for it? Additionally, how can I register it (with Remington) so that I will get safety notices, etc.? All assistance is appreciated.  
Thanks,  
John Reynolds

PS: Feel free to check out my website at <http://www.fishingfever.net>. It's broken into two main sections, Fishing and Hunting. Yes, Remington is featured as a manufacturer of choice...enjoy.
