Dear Gilbert,

Thank you for contacting Remington Country. Your firearm does not have the bolt lock style safety on it. The bolt lock program only applies to firearms that were manufactured prior to 1982. Remington is extending through December 31, 2003, its safety modification program to remove the bolt-lock mechanism from certain Remington bolt-action centerfire firearms made prior to March, 1982. (Post-1982 bolt-action firearms were not manufactured with bolt-lock mechanisms).

The unloading process for most bolt-action firearms with a bolt-lock mechanism cannot begin unless the manual safety is placed in the 'F' or "Off or Fire" position. We hope that this information is helpful to you. If you have further questions feel free to contact us at 1-800-243-9700 M-F 9am-5pm EST. We are here to assist you. We hope that you enjoy your new gun and always remember to follow the 10 Commandments of Shooting Safety:

1ST COMMANDMENT

Always keep the muzzle pointed in a safe direction.

2ND COMMANDMENT

Firearms should be unloaded when not actually in use.

3RD COMMANDMENT

Don't rely on your gun's safety.

4TH COMMANDMENT

Be sure of your target and what's beyond it.

5TH COMMANDMENT

Use proper ammunition.

6TH COMMANDMENT

If your gun fails to fire when the trigger is pulled, handle with care.

7TH COMMANDMENT

Always wear eye and ear protection when shooting.

8TH COMMANDMENT

Be sure the barrel is clear of obstructions before shooting.

9TH COMMANDMENT

Don't alter or modify your gun and have it serviced regularly.

10TH COMMANDMENT

Learn the mechanical and handling characteristics of the firearm you are using.
