Thank you for your recent inquiry. From the serial number that you provided you have a 700 BDL that was manufactured in 1980. As with any used firearm, we would strongly recommend you have the firearm serviced and evaluated by a competent gunsmith for function and safety. We feel it is imperative you know the exact condition of your firearm prior to shooting. Please also read our "Guide to Buying a Used Gun" found through the link below:

<http://www.remington.com/magazine/preview/rc007007.asp>

If you are not aware of a gunsmith in your area, please feel free to contact one of our RARC's found in the Support/Repair section of our website or the following link:

<http://www.remington.com/repairsvc/modelselection.asp>

If you will complete the form located in the What's New/Reading Room section of our website, we will forward to you a copy of the original owner's manual.

<http://www.remington.com/whatsnew/readroom.htm>

You can also find owner's manuals for some of our current models on-line in our Reading Room in the "What's New" Section.

Also, I have provided a link below for a safety message regarding the Model 700 and pre-1982 models. Please, if you have any questions, feel free to call us at 800-243-9700, Monday through Friday, 9 a.m. to 5 p.m. EST.

I have purchased a Mod 700 from a pawn shop and I am having trouble finding out which model it is. The ser. # is B6222555.. Is there any way to tell if it is a BDL, ADL, Classic or what?

Many thanks

George Murphy
