Thank you for contacting Remington Country. The rebate you received after you had your 722 bolt-lock removed was for \$20 rebate if you purchased Remington hearing protection, gun locks, safety glasses, or safes.

We do not offer ammunition boxes to consumers at this time.

I sent a Remington 722 in for the bolt safety recall a year ago. I received a gift certificate back when I received the rifle back. I have no idea what I did with the gift certificate. I was wondering if it would be possible to get some 12 gauge STS boxes and a couple of 300 RUM boxes for the gift certificate. I reload STS hulls and the 300 RUM but do not have any empty boxes to store the reloads in.

Thank you very much,
Thurston Morton
