Thank you for your inquiry. According to the serial number, your rifle was produced around 1948. To view the history available on this model, go to:

Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

I was given a rifle that belonged to my Grandfather and have enclosed the serial number. I was wondering if you might be able to give me a year of manufacture. Thanks for any and all help. Keith Felts
