

muzzle loader woes

Discussion Thread

Response (Chris)
Dear Mr. Kelley,

11/26/2003 11:13:46 AM

We apologize for any inconvenience you may be experiencing. We recommend our RemAction Cleaner on the trigger assembly to clean out any residue and debris that may be interfering.

If in the US, we recommend taking/shipping the firearm to one of the following Remington Premier Repair Centers for inspection.

Bolsa Gunsmithing
7404 Bolsa Ave.
Westminster, CA 92683

Customer (Bruce Kelley)

11/23/2003 10:54:04 AM

I am having trouble with my bolt/safety mechanism on my 700ML. When the gun is ready to fire, safety is released, the trigger will not move. The bolt has to be pulled back and then forward lock position 2-3 times before it will fire. I love this gun, (very accurate) but will trade for different brand if no remedy. This problem has lost me a few nice "BUCKS" B. Kelley
