manual for sptortsman 78

Discussion Thread

Response (Norm) Dear Claude: 1/20/2004 9:15:37 AM

Thank you for visiting Remington Country. Remington Arms produced a series of rifles and shotguns in the mid-80s known as the "Sportsman Series". These guns were never featured in the catalog as they were offered only to certain retailers. These guns featured the same design and function as more established and expensive counterparts. According to the information that you provided, your Remington Model Sportsmand 78 was produced in 1988. This gun is like the Remington Model 700 ADL. We would suggest that you review the information found on our homepage in the Safety Center entitled "Bolt Action Safety Message: Safety Modification Program for certain pre-1982 rifles " if you have questions about this program.

I purchased a 270 model sportsman 78 from a pawn shop.SN..B6882821... I was wondering if you could send me some information on this rifle? Like what searial numbers are efected under the recall. The recall was because of a defective trigger and the rifle could go off at anytime. Also what modle replaced sportsman78? Would it be possable to have you send me the manuale that goes with this firearm?
