Thank you for your inquiry. The complete firearm must be sent to have the modification performed. The cost for the modification is \$20.00 as long as no other repairs are needed. For further information on the modification please click on the link below:

Hello - I just purchased an older M700 ADL in 6mm Rem. This rifle does not allow the bolt to be opened with the safety in the "on" position. Can I send you the complete trigger mechanism for a upgrade or do you have to have the rifle sent to you? Is there a charge for this? I have not received it yet, therefore I cannot provide the serial #. Thank you for your time
