Unfortunately Remington no longer manufactures cartridges in this caliber. For additional assistance you may wish to contact the following companies that specialize in older and obsolete ammunition.

Old Western Scrounger, Inc
12924 Hwy A-12
Montague, CA 96064
530-842-1250

Ammo Depot
PO BOX 243
Waterloo, IL 62298
www.ammodepot.com

RTG Sporting Collectibles, LLC
Box 670894
Dallas, TX 75367
214-361-6577

The serial number of the Model 700 you own was produced around 1962, the first year for this model. Your firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

http://www.remington.com/Safety_Modification_Program/remington_safety.htm

good morning
i have 2 questions:
first question
does remington still produce ammunition for the 222 remington magnum caliber?
and was there ever a recall on early mod 700 bolt action rifles, i recently aquired a 700 adl in 308 cal, serial number 24756 and was told there was a recall on early 700's for a saftey prob.
any info u can give me would be appreciated
thanks
david grigg
