Dear Charles,

You must be referring to the bolt safety modification program. It is not a recall, but a program that we have extended to the end of this year. Below is a link to our web-site that describes the program. If you have any other questions, do not hesitate to contact me again. Thank you and have a great day!

I have a model 700 30-06 that I purchased in 1969. I understand that there is a re-call part for this and I would like to be able to get this, can you help?
