Dear Mr. Eberly,

Thank you for your patience. Your Model 700 was produced in 1968. Your firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

I will be sending my Remington 700 to Ilion NY for the bolt lock modification and also repair or replacement of the trigger assembly. Also will have them examine the possible firing pin problem where the pin goes down when the bolt is closing.
Thanks for the help on this matter.
