

Rem. Model 660 safety recall

Discussion Thread

Response (Chris)
Dear Mr. Gulizia,

11/24/2004 10:58:40 AM

We only recommend our Remington Authorized Repair Centers perform the modification.

I was able to get a list of gun repair shops from you, but the closest one is in South Dakota. Would it be possible to arrange to have a local shop do the modification? When there was a recall on this rifle several years ago, MoneyMaker's Guncraft, 1420 Military Ave, Omaha, NE, 68131, Ph: 402.556.0226, performed the necessary trigger assembly replacement. I would appreciate anything you can do to save me the expense of shipping my rifle to and from South Dakota. Will you please advise as soon as possible. Thank you, SJC.
