Thank you for your inquiry. According to the serial number that you provided, you have a Model 700 Varmint made in 2002. There aren't any accessories that would have come with the rifle. If you purchased the gun used, you can purchase an ISS key from our Parts Department. If you will please contact our Parts & Repair Department with your serial number, at 1-800-243-9700 Mon-Fri 9-5 EST, our representatives can assist you with this matter.

My Wife recently purchased a Model 700 Short Action, chambered in Rem. 223, serial # G6294378. Other than a few scratches on the Laminated stock, the Rifle "appears" to be UN-FIRED . . .

Other than NEEDING an Owners Manual, I would like to know . . . "what is the actual 'MODEL', that I now own? And, are there any Accessories that would have normally come with the Rifle, that I now, need to buy?" (Such as the "Bolt Lock" KEY?)

I absolutely LOVE the Rifle, and, "I have NOT even shot it Yet!"
Can't Wait!

Respectfully,
