Dear Mr. Krolikowski,

By the serial number, this rifle was produced around 1969. This rifle has not been involved in a recall in the past. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

http://www.remington.com/Safety_Modification_Program/remington_safety.htm
