Thank you for visiting Remington Country. We would suggest that you review the information found on our homepage in the Safety Center entitled "Bolt Action Safety Message: Safety Modification Program for certain pre-1982 rifles " at:
http://www.remington.com/Safety_Modification_Program/600_660.asp.

I have a Model 600 bolt action .243. Never had a problem with it. A friend told me that there had been a problem with the gun firing when the safety is on. Is this something I need to worry about. What if any fix exists.
