Thank you for your inquiry. We would need the serial number of the rifle to check for any recalls on your rifle.

You can view information on our safety modification program, go to;

http://www.remington.com/Safety_Modification_Program/remington_safety.asp

I have a remington 270 model 700, and i have heard that some of them had a recall on the bolt, it will sometimes fire when you close it. If you have any information on it please email me back. At this time i do not have the serial #

Thanks
Aaron Collins
