Thank you for visiting Remington Country. The Remington Model 600 Bolt Action rifle was introduced in 1964 and discontinued in 1967. We made approximately 95,000 of these guns during this time. According to the information that you provided, your Remington Model 600 was produced in or around 1964. We would suggest that you review the information found on our homepage in the Safety Center entitled "Bolt Action Safety Message: Safety Modification Program for certain pre-1982 rifles".

I have a rem. 600 in .308, serial # 7665. Can you tell me any info about it please? Was there any recall on it for any reason also?

Thank you so much.
