Dear Mr. Shreckhise,

Thank you for contacting Remington Country. Your Model 660 was produced around 1969.

Your rifle should be inspected for a trigger recall if it has not been inspected for the recall in the past. If it has been inspected, you will see a "V" stamped on the trigger. If not, we suggest taking or sending your firearm to a Remington Authorized Repair Center or our factory for evaluation.

You can locate your nearest repair center by visiting the Repair Information Center in our Support Section and selecting your model and state:

<http://www.remington.com/repairsvc/ModelSelection.asp>

To view more information on this safety message, go to:

http://www.remington.com/Safety_Modification_Program/remington_safety.htm

To view the history on this model, go to:

<http://www.remington.com/aboutus/gunhistory.htm>

Due to the many variables involved with valuation, we would encourage you to refer to the many publications that are available on the subject of gun values or have it appraised by a collector. Many of these books are available through public libraries or local bookstores. For your convenience we have provided a listing of the more popular books:

I recently purchased a model 660 350 rem mag with ser #6250781. I was

wondering if you could tell me any history on this rifle and how much it is worth. The rifle is in 98% to 99% with a leupold var1 x III 1.5x5 scope. I was also wondering if you could tell me some history on the model 660 magnums. Thanks John
