Dear Mr Firth. The program for Model 700's is for a safety selector upgrade. You can send your rifle to us and for \$20 we will change your safety to the post 1982 style. Print off our repair form from our web site, pack and ship your rifle (minus scope) UPS Ground Service. Be sure to insure the rifle. We will perform the upgrade, return your rifle and send a \$20 coupon for Remington safety products. Thanks!

I just found out about this today, 9/1/05. I'm glad you're extending the program but a bit concerned that I'd not heard about it until I just happened to go to your website. My 700 BDL is eligible for the program.
