Dear Ashley:

Thank you for visiting Remington Country. The Remington Model Mohawk 600 was introduced in 1972 and discontinued in 1979. This model was offered to dealers at discount prices and was not a catalog item. This model was offered in .222 Remington, 6mm Remington, .243 Win., and .308 Win. According to the information that you provided, your Remington Mohawk 600 was produced in or around 1977. We would suggest that you review the information found on our homepage in the Safety Center entitled "Bolt Action Safety Message: Safety Modification Program for certain pre-1982 rifles".

I may purchase a Mohawk 600 in .243, SN-A6508825. I heard there was a recall, and my question is what would I need to do in regards to the safety recall?
