

Muzzleloader recall

Discussion Thread

Response (Jule)  
Dear Randy,

12/22/2005 7:51:25 AM

We had a safety modification on our pre 1982 700 rifles but we have not had any safety modifications or recalls on the 700 muzzleloader.

Customer (Randy Schuller)

I own a Remington 700ml and someone recently informed me of a recall. It had to do with when the safety is depressed the gun can accidentally discharge.  
Thanks  
Randy
