Thank you for your inquiry. By the serial number, your 700 was produced around 1962.

You can view the history on this model in our Product - History section of the site.

http://www.remington.com/library/history/firearm_models/

Due to the many variables involved with valuation, we would encourage you to refer to the many publications that are available on the subject of gun values or have it appraised by a collector. Many of these books are available through public libraries or local bookstores. For your convenience we have provided a listing of the more popular books:

Note: Remington does not accept responsibility for the goods or services provided by these sources.

Blue Book of Gun Values
Blue Book Publications
8009 34th Avenue South #175
Minneapolis, MN 55425

Hi!

I got a used Model 700 for Christmas. Two questions:

- 1) It has serial number 3600 on it & "XJ" & "41" on the LH side of the barrel. Can you date it for me?
- 2) I have verified it has the bolt-lock mechanism safety issue. I want to know if I may obtain the parts & modify it myself.

I've been a Remington shooter/owner since 1974. Thanks much!
