TLW0300AS - Obstructed Bore Test:

One of the sample rifles will have a rifle bullet driven into the bore from the breech end to a position immediately ahead of the chamber. A standard round (.30-06, 220-gr. factory load) will be loaded and fired remotely. All testing will be done in the blow-up room using the high-speed video camera and witness paper. Before removing or otherwise disturbing the test samples, after blow-up photographs will be taken for the record. After collection and removal of the parts additional photographs of the various individual components will be taken for the record. All parts and will put in sample bags, boxed and temporarily stored for review if required.
