Neil,

Attached is the press release on the Model 700 LV SF - note two changes since the original introduction. The .204 Ruger chambering has been added and the current manufacturer's suggested retail price is \$952. The Model 597 release announces the most recent additions to the 597 family. Again, current MSRP are \$377 for the synthetic version and \$455 for the heavy barrel version. For 2005, there are 8 offerings in the Model 597 family.

As to the ammo images - two options are available. You can download images directly from our web site - [www.remington.com/artwork](http://www.remington.com/artwork) or we have a CD of images (which is in the mail to you). This CD will feature all of the images from the 2005 catalog. We don't have the capabilities here in-house to fulfill specific photo requests.

Thank you for featuring Remington products in the upcoming issue.

Best regards,

Linda Powell

Linda,

We have some extra pages in the next issue, so my boss wants a Varmint Hunting Rifles piece.

I'm featuring the Remington 597 & 700 LV SF. My original plan was to let you choose but time has run out - ALMOST.

Email any press releases you might have or, send me one paragraph each of the text you'd like to see in print.

I'm including a Remington ammo piece (ballistics table) as well but have no art.

Can you get me a jpeg photo of: 1) 22LR, 2) .17 HMR, 3) 204 Ruger, 4) 223 REM and 5) 22-250 lined up, side-by-side.

We're too poor to have a studio & I don't have the ammo anyway!

Alternately, send a few pieces of ammo "Overnight" & I'll try with my own digital.

My preference, however, is for your staff to do it & email me the result! Your people have more experience.

See you at the ShotShow if not before. I'm also available for the Fall roll-out or any hunt you might sponsor.

Sorry 'bout the telephone tag....

THANKS!!!  
Neil

Neil Dumas
