I will have a press kit mailed to you today.

Hot items from my perspective are the Model 700 XCR (Xtreme Conditions Rifle) and the Model 870 Special Purpose-Turkey shotgun with Thumbhole stock. I have attached those two releases for your review.

I will be available on Sunday afternoon and Monday morning if you want to schedule a specific time. Otherwise, just stop by the booth and catch me.

Hey Linda!

Shoot, literally and figuratively...I won't be in Vegas until Friday noonish. Would have liked to try some of the products out, but guess I'll have to settle for seeing them in the booth. Is there a time that works best for you? Anything you can send me on your favorite/big-push product before SHOT would be good, lightens the load to carry around and I can get a head start on producing some of the copy...

Thanks!
B

Brian,

When will you be arriving in Vegas? We will be hosting a shooting event with Swarovski and Kahles on Thursday afternoon which will give you a "hands-on" opportunity with our new products.

regards,

Best

Linda

Hey Linda,

Just thought I'd drop you a line to see what's new at Remington.
Unveiling
anything at SHOT this year? When would be a good time for me to drop by
and
check out any new gear?

Hope all is well!

Thanks!
B
