

CONFIDENTIAL

Quarterly Report - September, 1984

- 2 -

Sportsman 78 - cont'd.

parts list transmittal is complete and the remaining evaluation will be scheduled.

Model 700 Ducks Unlimited - R.S. Murphy

For the first time in 1985, Remington will produce a special, limited production Ducks Unlimited Dinner Rifle. Since the variation from a standard Model 700 entails only cosmetic changes, the total Research commitment will be limited to the transmittal and the trial and pilot evaluation. The transmittal is complete and the evaluation will be scheduled.

New Bolt Action Rifle - R.S. Murphy, F.E. Martin

A new bolt action rifle is being developed as a potential replacement for the Model 700, possibly in 1988. A "preferred" design has been selected by Marketing and Research, and work on the drawing package is continuing. A limited number of engineering test prototypes are also being built for evaluation in December. Computervision modeling of individual components is being done on a "safety critical" priority basis.
