

FIREARMS SAFETY DEPENDS ON YOU

- 1** Don't rely on a gun's safety. Treat every gun as if it were loaded and ready to fire.

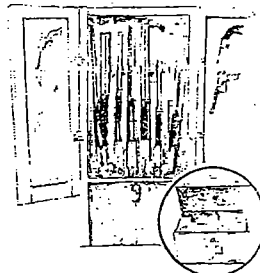

- 2** Never cross a fence, climb a tree or jump a ditch with a loaded gun.

- 3** Never load or carry a loaded gun until you are ready to use it.

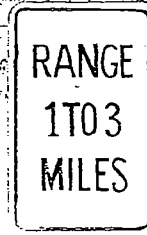

- 4** Watch your muzzle so the other fellow doesn't have to.

- 5** Keep guns and ammunition separate and in locked storage.

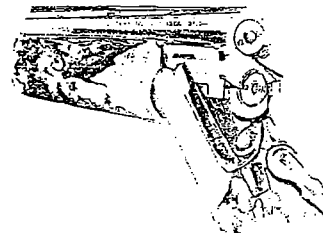

- 6** Don't shoot unless absolutely sure of your target and what is beyond it.

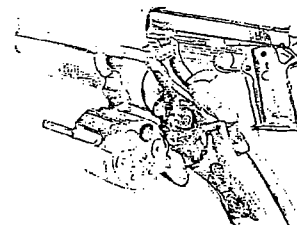

- 7** Know the range of your gun. Remember even a .22 rimfire can travel over 1 mile.

- 8** Always wear eye and hearing protection when shooting.

- 9** Always be sure the barrel is clear of obstructions. Only carry ammunition of the proper size for the gun you are using.

- 10** Always carry handguns with the hammer down on an empty chamber.

MAKE NO MISTAKE ABOUT IT!
