From: Leo Schneider

Subj: "Rensi 1"

1. Below is the requirements for "Rensi 1", as I understand them. I have provided these to Mike and Dave. If we need to make changes or my understanding is not based in fact....please let me know.

<u>Function</u>	<u>Testable</u>
FSR fix	Yes
Forced Engagement(.020 + or - .005)?	Yes
One piece trigger (no connector)	Yes
 <u>Suitability</u>	
Non-adjustable	Yes
Safety	
Drop test	Yes
Logistics	
Retrofitable	
Common parts (use as many as possible)	
Human factors	
Trigger feel - same	
Operation - same but safety will not engage without trigger/sear engagement	
Assembly - Procedures same as current trigger	
Manufacturable	
Time frame - changes can be made in production within 8 weeks of baselining design	

Very Respectfully,
